State accredits Fayette County Board of Developmental Disabilities

COLUMBUS – The Fayette County Board of Developmental Disabilities has been accredited by the state for the quality services and supports it provides to people with disabilities.

An accreditation certificate has been issued to the Board by the Ohio Department of Developmental Disabilities on February 26, 2014.

A comprehensive review of the County Board was conducted late last year by the Ohio Department of Developmental Disabilities (DODD). The accreditation review is a very rigorous and thorough process, spanning approximately six months. A team of surveyors from DODD reviewed all areas of County Board operations including personnel administration, services and support, and other indicators of the general efficiency and effectiveness of the County Board in the community it serves.

The results of the review found that the Fayette County Board of Developmental Disabilities achieved substantial compliance with minimum standards and subsequently obtained a 5-year period of accreditation in DODD's areas of excellence.

County Boards are given several months of advance notice to prepare for the accreditation review, which requires many staff hours and a great deal of coordination between programs and departments.

The administrator and staff of the Fayette County Board of Developmental Disabilities are to be commended for their efforts in achieving this service accreditation, as recognized by the state's review.

Our Mission

We offer quality programs and coordinate available services so that individuals we serve may realize their dreams and actively contribute to their community.

The Fayette County Board of DD is an Equal Opportunity Employer
