

Suzie Janasov has been the Early Intervention Specialist for 19 years, changing and evolving with the program. Suzie has the responsibility for children birth to 3 years old with diagnosed medical conditions, disabilities or delays. The average caseload is 30-70 students per year with over 1000 served over time. She does home and center services year round. Evaluations and assessments are county wide. EI collaborates closely with Help Me Grow and the school districts to serve the entire family of her students.

Suzie has been married to Steve, a Safety Director at ABX Air and retired from the Army for 28 years. Suzie and Steve have 3 children; Amanda, a Chemical Engineer for AEP, happily married – only blessing the Janasov's with grand-dogs so far; Sam, an Air Force Pilot currently serving in Afghanistan; and Alexandra, a third year nursing student at The Ohio State University. Suzie is still in denial that the nest is empty. It's a good thing that she has many children to nurture in her work which is why she loves her job. As Suzie says, every child is unique, challenging and inspiring!
